

DMS – Testimonials

Client satisfaction is paramount for DMS.

“Our orchard has been consistently near the top for industry OGR for a number of years, achieved on a corporate production orchard through high productivity, high dry matter and having exceptional storing fruit. At Ashton Orchard we have a long association with DMS, working together to invest in future production and profitability. DMS has managed a number of large innovative improvement projects for us and the results have always been excellent.”

David Willis

Chairman, Ashton Orchard Holdings Ltd Board of Directors

“Having a strong partnership with DMS has made it so much easier to operate a successful orchard. Being able to trust your manager is really important and we’re lucky that we have a great relationship with our orchard manager. We also have full confidence in the DMS packhouse and inventory teams, because they’re as passionate about our fruit as we are and constantly go the extra mile for growers.”

Owen St George

St George Orchard, Te Puna

“We have always felt comfortable working with DMS. They call a spade a spade which is exactly what I like to know. We began growing kiwifruit about 20 years ago, having come from dairy farming, and have been working with DMS ever since. We converted to G3 in 2010, as we saw it had huge potential and with the ongoing support of DMS continue to be just as excited about G3 in the future.”

Wayne and Elaine Skiffington

Kiwifruit growers, Pongakawa,
Western Bay of Plenty
